

FACIAL PEELS

TREATMENT PRICES

At Epilia, we exclusively use DERMACEUTIC — the leading brand in medical-grade chemical peels.

MILK PEEL

Very superficial peeling ●○○○

Indicated for the treatment of mild acne, keratosis pilaris, and superficial pigmentation lesions.

120€
/session

WHY CHOOSE MILK PEEL?

It **reduces** lesions on acne-prone skin, eliminates superficial pigmentation lesions, **stimulates collagen production**, and **improves** the appearance of wrinkles and fine lines.

Suitable for **all skin types**, no social downtime.

CRYSTAL PEEL

Superficial peeling ●●○○

Indicated for the treatment of melasma, post-inflammatory pigmentation, mild acne, and hyperkeratosis.

140€
/session

WHY CHOOSE CRYSTAL PEEL ?

Treats epidermal melasma, eliminates post-inflammatory hyperpigmentation, fades pigmentation spots, improves skin texture, reduces pore size, and decreases sebum production.

Suitable for **all skin types**, little to no social downtime.

COSMO PEEL 15%

Superficial peeling ●●○○

Indicated for the treatment of solar lentigines, superficial pigmentation lesions, and keratosis pilaris.

180€
/session

WHY CHOOSE COSMO PEEL 15% ?

Eliminates pigmented lesions, improves the condition of keratosis pilaris through an exfoliating effect, stimulates collagen and elastin production, evens out and revitalizes the skin.

Recommended for all **phototypes**, little to no social downtime.

COSMO PEEL 18%

Superficial peeling ●●●○

Indicated for the treatment of solar and senile lentigines, pigmentation lesions, and elastosis.

200€
/session

WHY CHOOSE COSMO PEEL 18% ?

Reduces the appearance of melasma and pigmentation spots, evens out complexion and imperfections, improves skin texture, and prevents signs of aging.

Recommended for **phototypes I, II, and III**, little to no social downtime.
